

## **CONFIRMATION OF AXPORT PAPER PALLET EXEMPTED FROM ISPM 15**

We are pleased to confirm that our patented paper pallet is exempted from ISPM 15, free from fumigation and heat treatment.

### **International Standards For Phytosanitary Measures No. 15**

'ISPM 15 is an [International Phytosanitary Measure](#) developed by the [International Plant Protection Convention \(IPPC\)](#) that directly addresses the need to treat wood materials of a thickness greater than 6mm, used to ship products between countries. Its main purpose is to prevent the international transport and spread of disease and insects that could negatively effect plants or ecosystems. ISPM 15 affects all wood packaging material (pallets, crates, dunnages, etc.) requiring that they be debarked and then heat treated or fumigated with [methyl bromide](#) and stamped or branded<sup>[1]</sup>, with a mark of compliance. This mark of compliance is colloquially known as the "wheat stamp". Products exempt from the ISPM 15 are made from alternative material, like paper, plastic or wood panel products (i.e. OSB, hardboard, and plywood). Source: [http://en.wikipedia.org/wiki/Ispm\\_15](http://en.wikipedia.org/wiki/Ispm_15)'

Our pallet had been established in the Market for about 7 years, which we sell to our export oriented customers. Normally, they will send our pallet with their goods to countries such as Australia, Europe, New Zealand, USA, Korea, China, Middle East, Singapore and Thailand .

Your support is very much appreciated.

Thank you.

Yours faithfully,  
For AXPORT SOLUTION SDN. BHD
